The Speed-Lok TR System from Norton

Norton's Speed-Lok TR 2 and 3 inch discs get into hard-to-reach areas for the toughest jobs. The Speed-Lok TR system permits instant disc mounting and removal. When you are ready to change the disc, simply twist it off.

Work Smarter. Finish Faster.

THE SPEED-LOK TR SYSTEM

Norton SG Blaze Discs

Norton SG Blaze self-sharpening design is ideal for high pressure, heavy metal removal applications. The engineered, laminated backing is extremely durable for the most rugged applications.

**NORTON SG
BLAZE**

FEATURES

- Laminated backing
- Seeded gel (SG) abrasive

BENEFITS

- Incredibly durable
- Long life and cool cut

NorZon Discs

Heavy duty grinding discs are preferred by body shop professionals for tough jobs like paint removal, cutting down plastic filler or prepping bare metal. The unique grain composition promotes a quick initial cut and actually self-sharpen with continued use.

FEATURES

- Superior zirconia alumina grain
- Durable phenolic resin bond system

BENEFITS

- Promotes quick initial cut
- Actually self-sharpen with continued use
- Optimizes grain adhesion
- Extends product life

Bear-Tex Surface Blending Discs

Bear-Tex surface blending discs deliver superior, consistent finishes whenever you need to clean, deburr, blend or finish. Ideal for removing rust and oxides, blending out disc marks, and removing coatings and gasket residues from automotive surfaces. Product color coding (by grit) makes work fast and easy.

FEATURES

- Superior weave design
- High tensile strength
- Flexible

BENEFITS

- Strengthens the pad
- Allows for a more uniform scratch pattern
- Resists shredding and tearing
- Good for hard to reach places

Coarse Brown	09191	09194	25

Bear-Tex Rapid Strip Discs

Excellent for removal of rust, undercoating, seam-sealers and stone guards, these discs can get into hard-to-reach areas like wheel wells and under carriage. Ideal for trunk beds and door jambs. Use to remove oxidation from tire rims and to remove rust from brake assemblies.

FEATURES

- Open web construction
- Conformable
- Thick, strong synthetic fibers and extra coarse grit

BENEFITS

- Fast cutting action with very little loading
- Allows for a more uniform scratch pattern
- Follow difficult profiles
- Easy cleaning of uneven surfaces
- Quick cleaning and conditioning of surfaces
