

NORTON RECOMMENDED PRODUCTS FOR WATERBORNE LIQUIDS

MASKING PRODUCTS

Automotive Polycoated Masking Paper

Ideal for masking the area adjacent to the panels being painted. Direct spray from both waterborne and solvent based paints will not penetrate the paper. The paper offers excellent adhesion for waterborne and solvent-based paints and will not flake off even after drying.

Overspray Sheeting

“Value” paintable overspray sheeting is a medium-density, corona-treated plastic.

Premium Masking Tape

- Easy-to-see tan color
- No bleed through
- Stays in place
- No curling edges or rollback

Blue Sheeting

With Norton Blue Sheeting, paint will adhere to the outside layer of plastic, eliminating paint flake-off, allowing for direct spray. Blue Sheeting features an easy-to-open fold pattern. All sizes come on a standard core to fit all current plastic masking dispensers, so one person can mask the vehicle alone.

Blue Wrap Wheel Maskers

- Tri-layer plastic
- Paintable - NO Flaking
- Fully covers both sides of the wheel
- Covers wheels up to 17"

Fine Line Tape

- “Pucker-free” cornering
- Straight edges on long runs
- Stays in place
- No curling edges or rollback

NORTON RECOMMENDED PRODUCTS FOR SHOPS USING WATERBORNE

DUST-FREE MULTI-AIR SYSTEM

The Norton Multi-Air Process provides maximum dust extraction to increase productivity and eliminate dust. Multi-Air back-up pads must be used with Multi-Air discs for the system to work properly.

Multi-Air Discs and NorGrip Back-Up Pads

Norton A275 "Original Performance" on hook-and-loop NorGrip discs offer the longest life and fastest cut for any sanding job in the bodyshop.

MULTI-AIR

PAINT FINISHING SYSTEM

Q260 Dry Ice and Liquid Ice Paint Finishing System are ideal for lower VOC, high-solid clears.

Dry Ice Q260 Finishing Discs and the Liquid Ice System

Quickly remove nibs and imperfections with Q260 finishing film discs. Remove all sanding scratches and swirl marks using Liquid Ice Extra-Cut and the wool or foam pads, depending on the finish required. To achieve the highest gloss finish and eliminate all swirl marks, especially on dark vehicles, use Liquid Ice Ultra-Fine Machine Glaze and the white finishing pad, followed up by the Liquid Ice Detailer Spray.
